

Data sheet

Humacolon[®] Colon-Hydro-Therapy Generator (CE 0535)

- Coldwater connection
- Footswitch for remote control
- Standard Luer connections
- Temperature display
- Variable pump pressure
- Digital volume measurement
- Built-in water heater
- Freely selectable irrigation fluids
- No cleaning or disinfection required after treatment
- 24 month generator warranty

Technische Daten:

- Power supply: 230 V AC
- Waterflow: 0,35 l/min fixed. (variabel 0 bis 0,60 l/min.)
- Water temperature: 22°C bis 40°C +/- 1°C (to regulate)
- Hot water outlet: 42°C +/- 1°C (fixed)
- Boiler temperatur: 70°C (fixed)
- Boiler alarm: 85°C (fixed)
- Cleaning: commercially available washing-up liquid, DO NOT USE solvents (acetone)
- Disinfection: Sagrotan / Kodan or similar
- Service life: 24 month
- Dimensions (LxBxH): 42 x 50 x 16 cm
- Weight: 8,00 kg
- Notified Body: CE 0535, EUROCAT / BSI Institute for Certification and Testing
- Product classification: EU directive 93/42 EEC for medical equipment, Appendix II a
