

Data Sheet

Humacolona[®] Colon-Hydro-Therapy-Generator (CE 0535)

- Warm- and Cold-water connection
- Wall-mounted-unit
- Simple handling with foot-switch
- Standard Luer-connection
- Temperature display
- Electric temperature control
- Pump pressure adjustable
- Electric, digital volume measurement
- No disinfection and purification needed after therapy
- 24 months generator warranty

Technical Details:

- Power supply: 12 V AC (only use with original power supply)
- Power consumption: 12 W, 1A
- Water flow: 0 to 0,6 l/min
- Water temperature: 22°C to 40°C +/- 1°C (adjustable)
- Hot water alarm: at 42°C +/- 1°C (fixed)
- Cleaning: solventless commercially available cleaner, DO NOT USE solvents (acetone)
- Disinfection: bland disinfectant Sagrotan / Kodan
- Service life: 24 months
- Dimensions (LxBxH): 28 x 30 x 12 cm
- Weight: 3,80 kg
- Referred position: CE 0535, EUROCAT/BSI Institute for Certification and Testing
- Product classification: EU directive 93/42 EEC for medical equipment, Appendix II b
