

Data sheet Humazona®

Ozone-Therapy-Generator – liscensed for autohaemo therapy

- LED-Display
- Digital-display for vacuum- and ozone concentration
- Ozone valve (dust-tight / air-tight barrier)
- sterilizable Ozone valve
- Ozone concentration to regulate from 0 up to 70 µg/ml
- vacuum- / suck function through Vacuum pump
- automatic cleancheck
- intigrated catalyzer
- justified photometric
- 24 month generator-warranty

Technische Daten:

- | | |
|---------------------------|---|
| ➤ Power supply: | 230 V AC |
| ➤ Power consumption: | 50 VA |
| ➤ Ozone generator: | Ozone concentration: 0 up to 70 µg/ml |
| ➤ Gas flow: | 300 ml/min. |
| ➤ Suction: | typical suction 2 l/min |
| ➤ Catalyzer: | Service life min. 5 years |
| ➤ Cleaning: | commercially available washing-up liquid, DO NOT USE solvents (acetone) |
| ➤ Desinfection: | Sagrotan / Kodan or similar |
| ➤ Service life: | 24 month |
| ➤ Dimensions (LxBxH): | 28 x 30 x 12 cm |
| ➤ Weight: | 3,80 kg |
| ➤ Referred position: | CE 0535, EUROCAT/BSI Institute for Certification and Testing |
| ➤ Product classification: | EU directive 93/42 EEC for medical equipment, Appendix II b |
